GUIDELINES ON ELECTRONIC VOTING

4/11/16

The Faculty Code does not currently specify a policy clearly nor have written procedures. However, by our guidelines follow Robert's Rules of Order procedures addressed to by voting/mail votes, etc.. Here are some of the suggestions I can proviour office uses:

*The by laws should include a statement allowing electronic voting & when electronic voting may occur (v. in-meeting voting)

 $b\ddot{y}*Openness:$ raising hands, etc. in a meeting is open, paper ballots o $b\ddot{y}$ votes are not open in the same way but should be subject to verifica

bÿ*A vote should not be a mix of in-person and electronic voting. The same format, the same question, the same timeline.

*The by laws should include a statement allowing electronic voting & when electronic voting may occur (v. in-meeting voting)

bÿ*Openness: raising hands, etc. in a meeting is open, paper ballots obÿvotes are not open in the same way but should be subject to verifica

by * A vote should not be a mix of in-person and electronic voting. The same format, the same question, the same timeline.
